Waterless Presses and Proprietary Stochastic Screening were utilized in the production of this calendar.

Soy Ink with reduced VOC's and Brighter colors enhance the calendar while preserving our environment.

The calendars Easel Board is manufactured using 100% Recovered Paper.

The 2009 Toronto Tree Portraits Calendar won a Silver Award for Most Progressive Environmental Sheetfed Print Project.

MOHAWK

manufactured with windpower

This calendar is printed on Mohawk Options 100% PC paper, which is made with process chlorine-free 100% post-consumer waste fibre. The emissions from purchased electricity used in the manufacture of this paper were offset with RECs from windpower projects.

This project used 1078.7 kg of 100% post-consumer waste paper.

23 trees preserved for the future

30 kg waterborne waste not created

30,718 litre wastewater flow saved

487 kg solid waste not generated

958 kg net greenhouse gasses prevented

16,174,178 BTUs energy not consumed

Use products manufactured with wind-generated electricity to conserve resources and reduce emissions.

487 kg air emissions not generated

1.1 barrels of fuel oil unused

equivalent to not driving 1,709 km in an avg. car

- OR -
equivalent to planting 73 trees
